## **Session Abstract**

Though the Property & Casualty (P&C) industry has made definitive inroads into technology adoption, there remain vast opportunities for the sector to reap the benefits of technology to achieve better, faster results. In this session, Mitchell will provide attendees with ways—including increasing automation and optimizing claim workflows—that they can use technology to simplify their operations and improve casualty claim outcomes.

## **Cocktail Reception**

Mitchell will be hosting an exclusive cocktail reception at the ACE conference. Contact your Mitchell representative or client services manager to learn more about this event.
